

Freezer Address System

EXAMPLE: my plasmid stock is located at

20 . 01 . 02 . 25

Indicates
which freezer
the item is
located in

Indicates the
location of
the rack in
the freezer

Indicates the
location of
the box in
the rack

Indicates the
location of
the tube in
the box

Therefore, to find my plasmid stock, you would go to the -20, pull out rack 1, take out and open box 2 and take the tube in position 25.
