Worksheet #5: Computation Graphs for Async-Finish and Future Constructs

1) Can you write pseudocode with `async & finish` constructs that generates a Computation Graph with the same ordering constraints as the graph on the right? If so, provide a sketch of the program. If not, why not?

2) Can you write pseudocode with `future & get` constructs that generates a Computation Graph with the same ordering constraints as the graph on the right? If so, provide a sketch of the program. If not, why not?

Use the other side of the worksheet for your answers
