COMP 322, Lab 3

Goals for this Lab

Parallel N-Queens in HJlib
- Abstract metrics
- Real performance!
  - See the cost of creating too many asyncs
  - Use cutoff strategy to improve performance

Notes on Real Performance
- Performance will vary by machine
  - As long as your solution is correct, we will check you off
- Can use the Autograder for consistent performance results
  - See Leaderboard to find out the best performance so far
