Knowledge base:

- DMC plotter HPZ6800 margins

  Table E-4 Margins

| | |
|---|---|
| Side margins | 5 mm (0.2 in) |
| Top margin (leading edge) | 5 mm (0.2 in) |
| | 11.5 mm (0.5 in) (glossy paper) |
| Bottom margin (trailing edge) | 5 mm (0.2 in) |

  Note: **If we have defined a custom page size that has very narrow margins or 0 margins, the printer imposes its own minimal margins and clip the image slightly.**
- **Printable area = paper size - margins**
  - for Preview, the printable area = paper loaded - margins
  - To scale an image or page, select Scale, then enter a percentage. To fill as much of the paper as possible, select Scale to Fit,
    - then select **Print Entire Image** if you don't want the image cropped. **This is our choice when printing a poster.**
    - or Fill Entire Paper if you want the image cropped to the proportions of the paper.
