# Export CampusPress Website and Beyond

Export CampusPress Website:

If you leave Rice and no longer have access to Rice CampusPress sites, you may export your website by going to your website dashboard, click on Tools >Export. Your website will be exported as .xml file, which contains information about layout and content.

Domain providers and web service/storage providers:

For both domain and hosting (The following domain providers support WordPress installation that allows you to import your .xml file.)

- Hostgator http://www.hostgator.com/
- GoDaddy https://www.godaddy.com/
- Bluehost https://www.bluehost.com/
- mac highway http://www.machighway.com

For nice looking templates, ease of use, and worry-free maintenance

- Wix http://www.wix.com/
- Squarespace https://www.squarespace.com/
- WordPress.com https://wordpress.com/

Note: The DMC staff have no first hand experience on any of above listed services and do NOT endorse any of them. Patron have to evaluate and decide which service best meets your needs.
