

Integrating with JIRA

JIRA is Atlassian's issue tracking system. Confluence and JIRA can be used together, allowing the integration of a content management solution with an issue tracker. For example, the [JIRA Issues macro](#) can be used to display a list of JIRA issues on your Confluence page:

Unknown macro: {jiraissues}

For more information on Atlassian's founding product please see the [JIRA webpage](#) or, alternatively, learn [how to pronounce 'JIRA'](#)
